Dan Willingham, [When Can You Trust the Experts?: How to Tell Good Science from Bad in Education](#), 2022.

A fine list of educational books is [here](#).

[Note 1: Education is a broad field. In putting together this list I put more emphasis on books relating to US K-12 curriculum recommendations.]

[Note 2: Please send corrections, or recommended additions, to "aaprjohn at northnet dot org".]

[Note 3: I have NOT read many of these well-regarded books, but from what I've heard I put some of the better ones in bold. Feel free to offer suggested improvements.]

Consider these as possible additions...

Not sure of these and their connection to Education...
